

Book with the reef experts.

Outer Great Barrier Reef & Fitzroy Island.

Sunlover Reef Cruises visit 2 incredible destinations from Cairns: Moore Reef on the Outer Great Barrier Reef, and Fitzroy Island. Our Outer Great Barrier Reef pontoon is stationed at Moore Reef, on a particular site that is renowned to be abundant with vibrant healthy coral and teeming with marine life.

Our pontoon is the perfect base for a day of exploring the wonders of the reef in comfort, with incredible included or add-on activities to suit all interests.

Fitzroy Island is a tranquil paradise just 45 minutes from Cairns where the stunning landscapes provide a picturesque backdrop for incredible in-water and land based inclusions and add-on activities

PERFECT FOR | individuals, groups of all sizes, exclusive charters.

IDEAL FOR | team building, offsite activities.

LOCATION | Cairns, Queensland..

Something for everyone.

Everyone can and should feel comfortable participating in coral and marine life viewing!

From avid scuba divers visiting our Reef Restoration Foundation Coral Nursery, or a ride on our glass bottom boats or semi-submersible for those who aren't comfortable in-water, and everything in between, Sunlover has something for everyone to be able to enjoy their day in their own way.

Prime location: Our commitment to reef stewardship.

Our site at Moore Reef is renowned its natural protection, making it a haven for turtles and marine life. It is even home to the Reef Restoration Foundation's largest Coral Spawning Nursery with up to 30 coral spawning trees flourishing. This is designed to help supercharge the annual spawning event that occurs, having a profound effect on the new coral growth in the Great Barrier Reef.

A lasting impact.

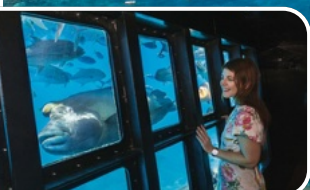

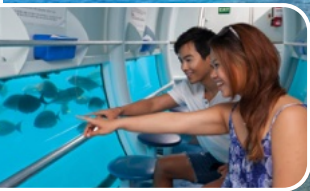

Sunlover pay an Environmental Management Charge for every single person who travels with us, paid to the Great Barrier Reef Marine Park Authority. These funds are completely directed to conservation and preservation of the Great Barrier Reef, so simply by visiting the reef, every passenger is having a positive impact!

The benefit of a day on the reef or island with colleagues or as a networking opportunity cannot be understated – we stand by the motto 'snorkel together, succeed together' and we have seen firsthand the new level of camaraderie that grows after a shared experience as incredible as Moore Reef or Fitzroy Island.

We like to keep it simple.

Making your reef and island experience enjoyable, easy, and completely devoid of unnecessary stress is something we have perfected to an art.

From your initial enquiry to find the best option for your group, right through to the moment you disembark at the end of the day, trust Sunlover to make it happen.
